Why It Matters For Your Facility

Hospitals and medical clinics generate an enormous volume of single-use plastic every day — pill bottles at the pharmacy counter, meal trays on patient nutrition carts, and cups in cafeterias and waiting rooms.

That plastic works against the same mission your facility exists to serve. A Hospital Sustainability Program built on PureFormSolution.com products replaces it with certified compostable alternatives — without changing how your teams work.

AT A GLANCE

29 lbs

of waste generated per hospital bed, per day, nationally

85%

of patients rate a facility's sustainability efforts favorably

100%

of Pure Form products are certified compostable

0

microplastics in every product we make

WHAT YOUR FACILITY GAINS

- ✓ Supports patient safety with zero microplastics in food-service and pharmacy items
- ✓ Delivers a measurable, reportable reduction in facility plastic waste
- ✓ Same performance staff expect — no workflow retraining required
- ✓ Helps meet Practice Greenhealth Partner for Change benchmarks
- ✓ Strengthens ESG and community health reporting with certified data
- ✓ Supports Joint Commission Environment of Care review readiness

A dedicated Hospital Sustainability Program helps your facility meet the standards patients, staff, and communities increasingly expect from healthcare providers.

Every Department, Covered

PR**Patient Rooms & Nutrition Services**

Replace plastic meal trays, cups, straws, and cutlery on every patient meal cart with compostable alternatives that meet food-service safety standards.

CUPS & LIDS · STRAWS · UTENSILS**CV****Cafeterias & Visitor Food Courts**

Outfit cafeterias, visitor cafés, and staff food courts with compostable clamshell boxes, cups, and utensils built for high-volume, multi-shift service.

CLAMSHELL BOXES · CUPS & LIDS · COFFEE STIRRERS**RX****Pharmacy & Pill Dispensing**

Swap petroleum-based pill bottles for PHA biodegradable pill bottles — the same durability and childproof performance, without the plastic.

BIODEGRADABLE PILL BOTTLES**ED****Emergency Department & Urgent Care**

High-turnover waiting rooms and triage areas need serviceware that keeps pace, without adding to your medical waste stream.

CUPS & LIDS · UTENSILS**ST****Staff Break Rooms & Admin Offices**

Give clinical and administrative staff sustainable options at every coffee station and break room that reflect your facility's values.

COFFEE STIRRERS · CUPS · MILK & JUICE JUGS**GS****Gift Shops & Visitor Beverage Service**

Stock gift shops and visitor beverage stations with compostable bottling that supports your public-facing sustainability commitment.

COMPOSTABLE BOTTLING · RIGID CONTAINERS**ONE PROCUREMENT SOURCE, EVERY DEPARTMENT**

Products ship pre-mapped to department needs, so your procurement and environmental services teams don't have to guess what replaces what.

6 Steps to a Plastic-Free Hospital

01

Audit Your Facility's Plastic Footprint

Survey every department and document every single-use plastic item by type, volume, and supplier.

02

Map Compostable Replacements

Match every plastic item to a certified Pure Form Solution alternative — pill bottles, cups, cutlery, containers, bottling.

03

Set Measurable Sustainability Goals

Define concrete targets tied to your reporting cycle and link them to Practice Greenhealth and ESG benchmarks.

04

Phase Your Rollout by Department

Start with pharmacy and cafeteria, then expand to nutrition services, the ED, break rooms, and the gift shop.

05

Train Clinical & Support Staff

Brief nutrition services, pharmacy, environmental services, and admin teams on handling compostable products.

06

Measure, Report & Certify

Track waste diversion per department and use our certification documentation to support accreditation and ESG reporting.

Meet Every Standard Your Facility Requires

PG

Practice Greenhealth Alignment

Certified compostable products support Partner for Change benchmarks for waste reduction and sustainable purchasing.

JC

Joint Commission Environment of Care

Documented product certifications help support Environment of Care standards reviewed during accreditation surveys.

HP

Healthcare Procurement Standards

Certified compostable products satisfy sustainable purchasing policies at hospital systems and outpatient clinics.

OC

OK Compost Industrial

Products certified to biodegrade completely in industrial composting conditions — no microplastic residue.

OM

OK Biodegradable Marine

PHA straws and select products certified to biodegrade in marine environments, the highest biodegradability standard.

ZM

Zero Microplastics

Every product is guaranteed free of microplastic residue — critical for patient-facing food service and pharmacy packaging.

DOCUMENTATION ON REQUEST

Every certification referenced above is backed by third-party test reports from TUV Austria and equivalent bodies. Your facility's compliance, procurement, or environmental services team can request full documentation to support accreditation surveys and sustainable purchasing reviews.

THE FULL SUITE, ONE SOURCE

Products Built For Clinical Use

Biodegradable Pill Bottles

OK Biobased

Compostable Cups & Lids

OK Compost Industrial

Biodegradable Straws

OK Biodegradable Marine

Clamshell Boxes

OK Compost Home

Biodegradable Utensils

OK Biobased

Compostable Bottling

OK Biobased

PHA Coffee & Cocktail Stirrers

OK Biodegradable Water

PHA & PLA bioplastics that biodegrade completely — in soil, marine, home, and industrial environments, with zero petroleum inputs and zero microplastic residue.

ORDERING & SUPPLY

- ✓ Volume pricing for single-facility and multi-site hospital systems
- ✓ Co-branding available for gift shop and visitor-facing beverage items
- ✓ Consistent supply for high-turnover departments like the ED and cafeteria
- ✓ Dedicated account support for phased, department-by-department rollout

Ready to Make Your Facility Plastic-Free?

Join hospitals and medical clinics eliminating single-use plastics with Pure Form Solution's certified compostable products. Our team will help you audit, plan, and phase your rollout department by department.

GET STARTED IN 3 STEPS

- 1 Request a facility plastic-footprint audit
- 2 Get a phased product rollout plan for your departments
- 3 Launch with staff training & patient-facing signage
